

TRAINING COURSES

International Associates is a leading eLearning training course providers within the field of Labour Standards and Quality Management systems. The courses are professionally developed by competent tutors and subject matter experts. Courses are available both classroom based and also online eLearning.

Learn more about the courses available by clicking on the links below.

Classroom Based Courses

We run Classroom based courses in various locations globally for internationally recognised standards, we are also able to offer in-house courses specifically tailored to your needs.

eLearning Courses

eLearning has the advantage of delivering excellent content in a convenient format that can be done at your own pace. All of our courses have been designed and developed to help your staff build on their skills and apply their knowledge more effectively in the work place. Below are the courses that are currently available. Please use the [contact us](#) form to sign up for any of the courses. We are also able to offer bulk discounts for multiple users.
